a.3. Sales performance

As at 30 June, Credemvita has issued a total of 17,319 new policies (of which one CPI contract) with 12,539 new subscriptions underlying CPI contracts; in the same period of the previous year, new contracts amounted to 10,104 (of which one CPI contracts) with 14,772 new subscriptions.

The details of the new contracts are provided below.

		1
Segment	New contracts 30/06/2023	New contracts 30/06/2022
Segment I	15,938	8,241
Segment III	517	1,055
Segment V	0	0
Segment VI	864	808
Total	17,319	10,104
		<u>.</u>

The insurance portfolio recorded an increase of 7.9%, rising from 137,631 contracts (of which 20 CPI contracts with 90,798 underlying subscriptions) as at 30 June 2022 to 148,477 contracts (including 23 CPI contracts with 96,908 underlying subscriptions) as at 30 June 2023.

Premiums collected by the Company, before reinsurance, amounted to $\$ 754,536 thousand, up 22.6% compared to $\$ 615,443 thousand premiums collected in the same period of the previous year.

The first half of the year was marked by an improvement in commercial results compared to the same period of the previous year thanks to the launch of new products linked to Specific Asset Funding; Revaluable products recorded an increase of 81.5% compared to a decrease in Unit-Linked products (-41.3%).

Gross collections were linked for € 565,460 thousand to segment I and V policies subject to revaluation, an increase compared to the previous year, characterised by gross collections of € 311,625 thousand; € 155,219 thousand refers to Linked products, exclusively related to Unit type policies, down against the previous year, characterised by gross collections of € 264,427 thousand. b. Evolution of the insurance portfolio

Production recorded an increase compared to the same half of the previous year, concentrated primarily on segment I-V products, which account for 76.8% of total premiums; segment III generated premiums for 20.6% of the total; segment VI generated premiums for 2.6% of the total.

The Company's portfolio, with premiums collected during the period amounting to € 754,536 thousand, showed a growth trend overall with respect to 30 June 2022, as illustrated in the table below.

Gross premiums on Unit-Linked policies declined in absolute terms by \in 109,208 thousand (-41%), while gross premiums on Guaranteed-rate policies rose significantly by \in 253,835 thousand (+82%).

The premiums of products with temporary cover in case of death and credit protection policies fell by 20%; the Open-end Pension Fund fell by -9%.

Summary of gross premiums in the first half of the year (in €/thousand)

d. Performance of insurance business carried out under the freedom to provide services and through secondary offices in EU countries or members of the European Economic Area and in third countries

The Company does not have any business abroad.

e. Fundamental aspects of the reinsurance policy with specific regard to changes in the most significant types of reinsurance adopted

As of today, the company has only implemented techniques to mitigate the risk of death by purchasing reinsurance coverage, whose purpose is to help guarantee the technical balance, reduce the volatility of the economic results and contain the risk assumed by the company.

The aim of using the reinsurance service is to make the amount of capital at risk held by the Company for every policy holder as consistent as possible so that exceptional events relating to or claims by policy holders with significant insured amounts do not generate impacts as such to put the company's solvency at risk.

At the valuation date, the company has two "risk premium" reinsurance treaties in place with the company Münchener Ruck Italia S.p.A., and a reinsurance treaty with commercial premiums in place with the Reinsurance Company RGA.

Reinsurance treaties are renegotiated annually to make it possible to continuously structure the reinsurance coverage based on the Company's changed risk coverage needs.

f. Research and development and the main new insurance products introduced into the market

- During the first half of the year, the Company started the placement of new revaluable tariffs linked to specific asset funding and the new Credemvita III Separate Portfolio.
- The Company has also proposed a retention campaign through the granting of bonuses on revaluable and multi-segment contracts placed between June 2023 and November 2023.
- The Company also relied on an analysis of the strategic positioning of the offer with respect to the main competitors for the bancassurance channel and at the level of the entire market, with a view to understanding the points of strength and areas for improvement of the product catalogue, to incorporate market trends and innovation tips useful for future developments.

g. Fundamental aspects of the investment policy and returns achieved

As regards class "C", the investment policy continued to favour Government bonds (72.2% of the portfolio against 74.2% as at 31/12/22), in particular Italian Government bonds represent the main component of the total portfolio. The corporate bond component and the mutual fund and SICAV component (13.9% of the portfolio compared to 16.8% at 31/12/21) remained stable. Essentially all of the corporate bonds in separate management portfolios have been issued by "investment grade" issuers and are highly liquidable.

As regards class "D", the investment policy was consistent with the characteristics of Unit-Linked internal and external funds and with the regulation of the open-end pension fund "Credemprevidenza".

The following table summarises the distribution of the investments belonging to class "C" of the Balance Sheet (amounts in €/thousand), compared to 31 December of the previous year:

j. Significant events after the end the of interim period that might significantly affect the balance sheet and financial situation or the economic result

The company constantly monitors the situation and any conditions involving a deterioration in the financial markets where these impact its solvency and will take any other strengthening actions needed to guarantee an adequate level of capitalisation, also under significant stress conditions.

k. General comments on business performance from the end of the half-year period and expected results for the current year

In continuity with recent years, from the moment the health emergency emerged and with the start of the war in Ukraine, the Company continues to closely monitor the evolution of the situation and the consequent exceptional and extraordinary volatility of the markets, carefully observing the main operational, commercial, economic, financial and solvency indicators. Therefore, also for 2023, the rolling forecasting process that continuously reperforms the forecast expected for year-end continues to be used.

The data obtained and relating to the latest quarterly forecast available at the date of the transmission of this report (which take account of the final balances as at 30 June 2023) suggest that the year will close with premiums collected of around \in 1,226,000 thousand (\in 1,020,878 thousand as at 31 December 2022) as defined as part of the forecast process approved by the Board of Directors.

From an economic perspective, a result in line with that recorded at the end of last year is expected as at 31 December 2023 in the event of repetition of the Anti-Crisis Decree.

q. Illustration of the influence on the economic situation of transactions for significant amounts, regarding the transfer of securities from one segment (long-term or shorter-term) to the other, namely the early disposal of securities classified as long-term, of an exceptional and extraordinary nature

No early disposals or transfers of securities to long-term securities were carried out during the period.

The following corporate securities classified as long-term were redeemed early.

Regulation 52 (and subsequent provision 127) relating to the Anti-Crisis Decree applied for the financial statements as at 31 December 2022 stipulates, in Art. 4(8) (and Art. 1(2b) of provision 127) that the company that has exercised the right for the purposes of preparation of the financial statements or half-yearly report, shall show the effects deriving from:

- a) any sale of securities during the half-year following the reporting date;
- b) the valuation of the securities at the next reporting date.

With regard to point a)

During the first half of 2023, the Company carried out the following transactions:

Relations with shareholders

The Company is controlled by a sole shareholder, Credito Emiliano S.p.A. Therefore, the Company is subject to management and coordination pursuant to Art. 2497 of the Italian Civil Code by Credito Emiliano S.p.A.

As indicated previously, as at 30 June, the fully paid-up share capital amounted to 121,600,044.

It should be noted that, on 23 June 2023, the Extraordinary Shareholders' Meeting in order to:

- support the further growth of the Company and the development of the related business with a drive towards new innovative products that are more consistent with the needs of policyholders and potential customers (e.g. multi-segment and revaluable policies);
- achieve even more reassuring levels of capitalisation and solidity than the current ones;
- be able to face, with suitable safety margins, any future situations of volatility and tension in the markets and the macroeconomic context that may further arise, making the Company even more resilient to risk factors such as rates, spreads and surrenders.

It resolved to increase the share capital by $\[\]$ 100,000,026.00 and, therefore, from $\[\]$ 121,600,044.00 to $\[\]$ 221,600,070.00, through the issue of 19,379,850.00 shares with a nominal value of $\[\]$ 5.16 each. Also pursuant to Solvency II regulations, the aforementioned amount has such characteristics that it can be considered, as soon as it is paid by the Shareholder, as an element of the Tier 1 Basic Own Funds.

The share capital increase was completed with the filing with the Register of Companies of the updated Articles of Association and with the issuance of new shares following the authorisation through Provision ref. no. 0175819/23 of 20 July 2023, through which the Supervisory Authority approved the amendments to the Company's Articles of Association.
